## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 11-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase 'in a correlated manner with one another' of claim 11 is not clear. Do applicants mean that there are at least three or more storage devices ?

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

4. Claims 11-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Miyagawa et al. (USPN 5,732,222).

Art Unit: 2771

**Regarding claim 11:**

Each and every element of claim 1 is disclosed by Miyagawa et al., note: the claimed ‘an information processing device interconnected via transmission media with a plurality of other information processing devices’ is shown in col.4, l.15-32,

the claimed ‘storage means for storing, in a correlated manner with one another, an event indicative of a change of situation relating to information handled by at least one information processing device and other information processing devices of said plurality of information processing devices’ is shown in col.7, l.14-44,

the claimed ‘identification data for identifying information to be transmitted in response to said event’ shown in col.10, l.19-46,

the claimed ‘transmission destination data indicative of a transmission destination of said information to be transmitted’ is shown in col.7, l.57 to col.8, l.26,

the claimed ‘detection means for detecting a content of said event’ is shown in col.9, l.10-31,

the claimed ‘transmission means for transmitting, via said transmission media, said information identified by said identification data corresponding to said content of said event detected by said detection means to an information processing devices that is designated by said transmission destination data corresponding to said event’ is shown in col.10, l.19-46.

**Regarding claim 12:**

The claimed ‘event is a transmission of information from one of said other information

processing devices to another' is shown in col.9, l.10-31,

the claimed 'transmission means transmits information associated with said information transmitted' is shown in col.10, l.19-46.

**Regarding claim 13:**

Claim 13 is rejected for the similar rationale given for claim 12.

**Regarding claim 14:**

The claimed 'said event is a modification of information handled by said at least one information processing device' is shown in col.2, l.51-59.

**Regarding claim 15:**

Claim 15 is rejected for the similar rationale given for claim 1.

**Regarding claim 16:**

The claimed 'said destination is at least one of said plurality of other information processing devices interconnected with said at least one information processing device' is shown in col.10, l.19-46.

**Regarding claim 17:**

Claim 17 is rejected for the similar rationale given for claim 12.

**Regarding claim 18:**

The claimed 'a current situation of a facility which performs a predetermined process' is shown in col.4, l.61 to col.5, l.11,

Art Unit: 2771

the claimed 'information is transmitted to a controller which uses said information transmitted and controls the predetermined process of said facility' is shown in col.4, l.33-60.

**Regarding claim 19:**

Claim 19 is rejected for the similar rationale given for claim 1.

**Regarding claims 20-28:**

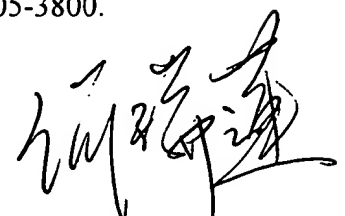

Claims 20-28 are rejected for the similar rationale given for respective claims 1-19.
